

# Ergo headgear

## Maximum comfort

The headgear of a welding helmet is the central link between the wearer and their helmet. A high level of comfort and perfect ergonomics have a positive effect on the health of personnel.

## Compatible

The headgear is compatible with all Fronius helmets (Vizor 4000/Connect/Fazor/GrindMask) and can be fitted quickly.

## Comfortable

The interchangeable padding ensures a comfortable fit.

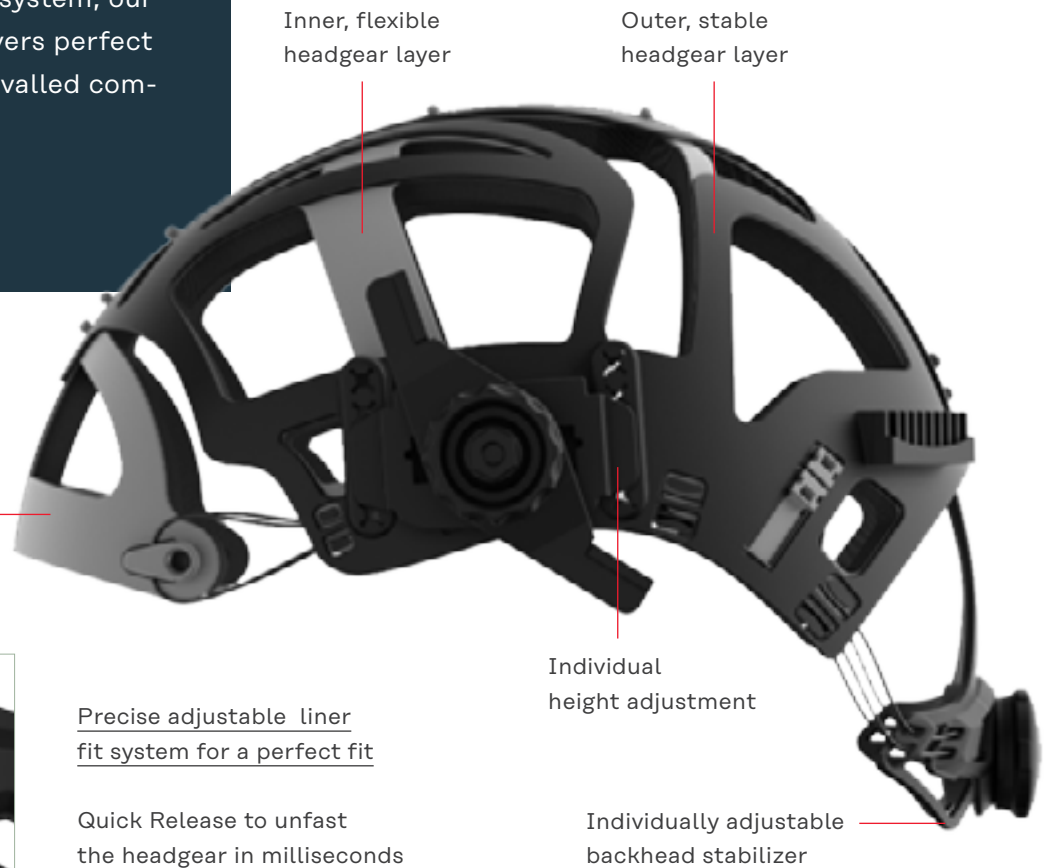

## Three-dimensional

The width, length and height of the headgear can be adjusted quickly and easily to fit the wearer's head.

# Full flexibility

Made for everyday welding: thanks to its sophisticated cable pull system, our Fronius Ergo headgear delivers perfect weight distribution and unrivalled comfort.
